Mr Andy Price

INTRODUCTION TO NEPTUNE'S SPECIAL OPERATIONS DIVISION (SOD)

At Neptune Security, we recognise that the challenges of modern security are ever-evolving, demanding not just strength but strategy, not just action but anticipation. In response to this dynamic landscape, we have established the Neptune Special Operations Division (SOD), a pinnacle of security excellence within the Northern Territory and ASIA. The SOD embodies our commitment to innovative, comprehensive security solutions that safeguard our communities and assets against a spectrum of threats.

Comprising of several specialised units, each with distinct expertise and operational focus, the SOD operates under the overarching banner of Neptune Security, synergising to address diverse security challenges across the territory and ASIA. From public order response and maritime protection to close personal protection and aviation asset security, our division spans a broad spectrum of capabilities. These units are defined not only by their specialised focus but also by their operational flexibility, intelligence-driven strategies, and collaborative approach that leverages partnerships across various sectors.

Our operators form the backbone of the SOD, selected and trained to embody the highest standards of proficiency, integrity, and adaptability. Operating within a structured three-tier system, they bring unparalleled flexibility and competency to our operations, ensuring we can respond with precision and agility to any scenario. Their training encompasses a broad range of skills, from advanced medical response and cross-cultural sensitivities to the strategic use of firearms and canine assets, preparing them to meet the complex demands of modern security head-on.

At the helm of this elite division is a dedicated coordinator. They oversee the seamless integration and coordination of all unit activities, ensuring that each operation is executed efficiently and effectively. This structure facilitates a rapid and coordinated response to security challenges and reinforces our commitment to excellence and continuous improvement in all facets of our operations.

Neptune's Special Operations Division is more than just a security force; it is a strategic, multifaceted entity designed to navigate the complexities of contemporary security challenges. Through our specialised units, advanced training, and philosophy grounded in partnership and innovation, we stand ready to protect, serve, and inspire confidence across the Northern Territory and beyond.

SPECIAL OPERATION DIVISION

Neptune Special Operations Division (SOD) - Executive Summaries

1. Northern Territory Public Order Response Unit (NT PORU): The NT PORU is a specialised unit designed to manage and mitigate antisocial behaviour in the Darwin area proactively. The unit collaborates closely with local authorities and stakeholders to ensure public safety and well-being by employing intelligence-based strategies and community-centric approaches.

2. ARMA - Asia Armed Specialist Contracting Unit: Based in Thailand and Timor, this elite arm of ARMA focuses on the secure transportation of valuable commodities, collaborating with specialist teams for high-stakes operations across Asia. The unit is renowned for its precision, reliability, and ability to handle complex security challenges, ensuring the safe transit of assets through potentially volatile regions.

3. ARMA—Armed Capability Unit: ARMA represents the armed wing of Neptune Security, providing comprehensive safety and security services, particularly for cash and valuables in transit. Operators are meticulously trained and licensed, ensuring the highest standards of armed protection, including for U.S. Naval warships passing through Darwin Port.

4. Neptune Maritime Protection Unit (NMPU): Specializing in maritime security, the NMPU focuses on protecting naval assets, emphasizing the safe transit of U.S. Naval warships. The unit combines advanced surveillance, strategic defence operations, and rapid response capabilities to address maritime security challenges effectively.

5. ARMA Close Personal Protection Unit (CPPU): The CPPU is dedicated to offering tailored close protection services, employing advanced defensive tactics and medical response to ensure the safety of high-risk individuals and groups. This unit is distinguished by its expertise in conflict resolution and protective escort services.

6. Aviation Asset Protection Unit (AAPU): Specializing in the security of aviation assets, the AAPU employs advanced protocols and canine assets to protect airports, aircraft, and related infrastructure. The unit's comprehensive approach includes threat assessment, emergency response, and extensive patrols.

7. General Canine Asset Protection Unit (GCAPU): The GCAPU leverages the unique capabilities of trained canines to enhance security measures across various scenarios. Specializing in tracking and crowd control, the unit integrates canine patrols to provide a dynamic and responsive security presence.

8. Community Engagement Patrolling Unit (CEPU): Focused on fostering positive community relations, the CEPU engages in outreach and support activities, aiming to enhance public safety through collaboration and direct engagement. The unit prioritizes accessibility and proactive support, particularly for vulnerable community members.

9. Prisoner Transport and Escort Unit (PTEU): Working in partnership with the Northern Territory Police, the PTEU specializes in the secure transportation and escort of detainees, facilitating efficient and safe transfers while optimizing Police resources. This unit is recognized for its rigorous training and operational excellence.

NT PUBLIC ORDER RESPONSE UNIT

Neptune's Public Order Response Unit (PORU) is the vanguard of safety and security within the Northern Territory, embodying a fusion of elite training, unparalleled experience, and a deep commitment to community welfare. With a foundation built upon the rich backgrounds of our operatives from prestigious sectors such as the Australian Defence Force, foreign defence forces, corrections, border force, and Police force, PORU exemplifies excellence in public order management. Our Tier 1 operatives are equipped with advanced skills in defensive tactics, de-escalation, baton and handcuff use, K9 handling, and OC spray, underscored by their Security Cert IV training. As a dedicated unit of Neptune Security, PORU is your trusted partner in maintaining peace, order, and safety, ensuring a secure and harmonious environment for all within the Northern Territory.

NEPTUNE'S NORTHERN TERRITORY PUBLIC ORDER RESPONSE UNIT (NT PORU)

Neptune's Northern Territory Public Order Response Unit (NT PORU)

In the heart of the Northern Territory, Neptune Security proudly introduces its cornerstone of community safety and resilience: the Northern Territory Public Order Response Unit (NT PORU). This elite division is Neptune Security's frontline in safeguarding the community against the ever-evolving landscape of antisocial behaviour, ensuring peace and stability across the greater Darwin area.

Our Mission: NT PORU is committed to proactively addressing and managing areas of concern related to antisocial behaviour. Operating within both public and private realms, our strategy is rooted in intelligence and community-centric approaches, emphasizing safety and well-being for all.

Strategic Importance: Recognising the profound implications of unchecked antisocial behaviour, NT PORU is equipped with an extensive toolkit to protect and serve. Our operational excellence ensures a responsive and adaptive approach, balancing the risks posed by antisocial elements with community impact and perception. Our security function is informed by principled frameworks and risk management, embodying Neptune's ethos of foresight, agility, and integrity.

Operational Excellence: From planning to mobilization, action, and demobilization, NT PORU's mandate spans the full operational spectrum. We are dedicated to the vigilant reassessment of community risks and the proactive adaptation of our strategies, ensuring a state of perpetual readiness.

Community First: Our core objective is to minimize the occurrences and impacts of antisocial behaviour, working collaboratively with law enforcement and community partners. NT PORU acts as both a shield against threats and a bridge to essential services, reinforcing the public's sense of safety and security.

Professionalism and Engagement: Reflecting Neptune's commitment to excellence, NT PORU personnel are the epitome of professionalism, trained to engage proactively in regions affected by antisocial behaviour. Our goal is to not only address immediate concerns but also to enhance community confidence and security, contributing to the economic vitality and prosperity of the Northern Territory.

Your Partner in Public Safety: NT PORU stands as your steadfast partner, equipped to confront the challenges of modern community safety with strategic foresight, tactical prowess, and an unwavering commitment to the well-being of the communities we serve.

Choose Neptune's NT PORU for a partner committed to innovation, excellence, and the proactive safeguarding of public order and community welfare.

NEPTUNE'S NORTHERN TERRITORY PUBLIC ORDER RESPONSE UNIT (NT PORU)

Neptune's Northern Territory Public Order Response Unit (NT PORU)

Building on the foundation of the Northern Territory Public Order Response Unit's (NT PORU) capabilities and mission, our most valuable asset—our operatives—is the key to our success and the cornerstone of our operational effectiveness. Neptune Security's NT PORU is distinguished not just by our strategic approach and innovative tactics but also by the exceptional calibre of our Tier 1 operatives. These individuals bring a wealth of knowledge, experience, and expertise, setting a new standard in security and public order operations.

Tier 1 Operatives: The Backbone of NT PORU

Elite Training and Skills: Our operatives undergo rigorous training that spans a broad spectrum of skills essential for their dynamic and challenging environments. This includes advanced defensive tactics, de-escalation training, and proficient use of batons, handcuffs, and OC spray, alongside specialized K9 training. Each member is also certified in Security Operations at a Cert IV level, ensuring they possess both the theoretical knowledge and practical skills to excel in their roles.

Diverse and Rich Backgrounds: What truly sets our operatives apart is their diverse backgrounds, drawing on extensive experience from some of the most respected forces and agencies worldwide. Many have served in the Australian Defence Force, foreign defence, corrections, border, and police forces. This diversity brings a unique blend of perspectives, skills, and tactical insights, enriching our unit's collective capability.

Commitment to Excellence: Our Tier 1 operatives embody Neptune's core values of loyalty, teamwork, integrity, continuous improvement, and equality. Their dedication to their roles and the communities they serve is unparalleled. They are not just security personnel but guardians of public safety, committed to the highest standards of professionalism and service.

Advanced Operational Readiness: Our operatives' comprehensive training and diverse experiences ensure they are operationally ready for any scenario. Their ability to swiftly adapt to changing situations, make critical decisions under pressure, and deploy a range of tactical responses sets NT PORU apart as a leader in public order and safety operations.

A Symbol of Trust and Reliability: To the communities we serve, our operatives represent a symbol of trust, reliability, and safety. Their presence is a reassurance that public order will be maintained with respect, empathy, and professionalism. They are the frontline defenders against antisocial behaviour, equipped to handle complex challenges while fostering a safe and secure environment for all.

Conclusion: Neptune's NT PORU is more than just a unit; it's a comprehensive solution to today's public safety challenges, powered by our Tier 1 operatives. Their elite training, diverse backgrounds, and unwavering commitment to excellence are the pillars that support our mission to safeguard communities across the Northern Territory. With Neptune's NT PORU, you choose a partner dedicated to innovation, excellence, and the proactive preservation of public order and community welfare.

ARMED RISK MITIGATION ASIA

ARMA - Asia Armed Specialist Contracting Unit stands at the forefront of specialized security services, offering unparalleled asset protection across the dynamic and challenging environments of Thailand, Timor, and beyond. Our elite Tier 1 operatives, equipped with advanced weapons and counter-terrorism training, embody the pinnacle of operational excellence and precision. With a steadfast commitment to security and an unwavering dedication to our clients' needs, ARMA ensures the safe and secure transportation of valuable commodities through potentially volatile regions. Entrust your assets to ARMA, where precision, reliability, and expertise converge to create an impenetrable shield of protection for your most valuable commodities in Asia.

ARMED RISK MITIGATION ASIA (ARMA)

Armed Risk Mitigation Asia (ARMA)

Introduction: The ARMA—Asia Armed Specialist Contracting Unit is a pivotal component of Neptune Security's global operations. It specialises in the secure transportation of valuable commodities across the complex and diverse landscapes of Thailand, Timor, and broader Asia. This elite unit distinguishes itself through unparalleled precision, unwavering reliability, and a sophisticated understanding of the unique security challenges presented by high-stakes operations in potentially volatile regions.

Operational Excellence: ARMA's core mission is to ensure the safe and secure transit of high-value assets, leveraging a deep knowledge of regional security dynamics and an extensive network of local contacts and specialist teams. Our operations are characterised by meticulous planning, robust risk assessment, and strategic execution designed to mitigate threats and deliver uncompromised asset protection.

Advanced Training and Capabilities: Each operative within the ARMA unit undergoes rigorous training encompassing advanced security protocols, close protection, tactical driving, and crisis management, ensuring readiness for any scenario. Our training is continuously updated to reflect the latest security advancements and geopolitical insights, maintaining our edge in operational excellence.

Collaboration with Specialist Teams: At the heart of ARMA's success is our collaborative approach, partnering with specialist teams across Asia to enhance our operational capabilities. This synergy allows us to rapidly extend our reach, adapt to local conditions, and deploy a multifaceted security strategy encompassing technological, physical, and intelligence-driven solutions.

Handling Complex Security Challenges: ARMA is renowned for its ability to navigate the intricacies of Asia's security landscape, addressing challenges such as political instability, piracy, and transnational crime. Our proactive and preemptive strategies are tailored to the specific nature of each operation, ensuring the integrity and confidentiality of every asset entrusted to our care.

Precision and Reliability: The hallmark of ARMA's operations is our unwavering commitment to precision and reliability. Our clients trust us to deliver seamless security solutions that address their most critical concerns, from the initial risk assessment through to the final delivery. Our track record speaks to our ability to execute flawlessly, ensuring the safe transit of assets even through the most challenging environments.

Conclusion: The ARMA - Asia Armed Specialist Contracting Unit is your strategic partner for secure asset transportation in Asia. With our exceptional team of operatives, advanced training, and collaborative approach, we are uniquely positioned to address the complexities of today's security landscape. Trust ARMA to safeguard your valuable commodities, delivering not just security but peace of mind.

ARMED RISK MITIGATION ASIA (ARMA)

ARMA Tier 1 Operatives: The Vanguard of Security and Precision

Advanced Training: ARMA's Tier 1 operatives stand out through their comprehensive advanced weapons training, equipping them with the expertise to handle a wide array of armaments under various operational scenarios. This extensive training ensures that each operative can effectively neutralize threats, providing our clients with unparalleled asset protection.

Counter-Terrorism Expertise: In today's volatile security environment, counter-terrorism proficiency is not just an asset; it's a necessity. Our operatives undergo rigorous counter-terrorism training, focusing on threat identification, rapid response strategies, and crisis management. This specialized training prepares them to preempt, respond to, and neutralize terror-related threats, safeguarding assets against the most severe security challenges.

Operational Readiness and Versatility: The ARMA unit prides itself on the operational readiness of its Tier 1 operatives. Prepared to deploy at a moment's notice, they can adapt to Asia's dynamic and often unpredictable security landscapes. Their versatility enables them to operate effectively in densely populated urban centres or remote and rugged terrains.

Collaborative Operational Strategy: Beyond individual excellence, our Tier 1 operatives excel in collaborative strategies, working seamlessly with local forces, international security teams, and specialist units to ensure comprehensive security coverage. This cooperative approach amplifies our operational impact, ensuring that all facets of asset transportation are secured against potential threats.

Commitment to Excellence: Embodied within each Tier 1 operative is ARMA's unwavering commitment to excellence. Their dedication to the mission and advanced skill sets fortify our unit's reputation as a leader in secure transportation and asset protection. They are guardians of our client's assets and ambassadors of ARMA's values and dedication to security.

Conclusion: ARMA's Tier 1 operatives represent the pinnacle of security expertise, with advanced weapons training and counter-terrorism capabilities that set them apart in the industry. Entrusting your valuable commodities to ARMA ensures their safe passage and the peace of mind that comes from partnering with the foremost experts in security and asset protection. With ARMA, your assets are in the safest hands, guarded by professionals who define security excellence standards.

ARMA—ARMED CAPABILITY UNIT NT

ARMA NT, a pivotal unit within Neptune's Special Operations Division, is dedicated to providing top-tier armed protection and security services throughout the Northern Territory. Specializing in the safe transport of cash and valuable assets, as well as offering comprehensive armed security solutions, ARMA NT stands out for its precision, reliability, and commitment to excellence. Operatives within this unit, primarily Tier 2 personnel, are highly trained in a range of security disciplines, focusing on areas such as advanced medical response, effective use of force, and strategic asset protection. By leveraging their specialized skills and extensive training, ARMA NT operatives ensure the highest level of security and safety for both public and private sectors, addressing the unique challenges faced in the Northern Territory with professionalism and unwavering dedication.

ARMED RISK MITIGATION NT

ARMA—Armed Capability Unit: Ensuring Unmatched Protection and Security

At the heart of Neptune Security's diverse spectrum of security solutions lies the ARMA—Armed Capability Unit, a specialized division dedicated to delivering unparalleled armed protection services. With a specific focus on the secure transport of cash, valuables, and high-value assets, ARMA stands as the bastion of safety in an uncertain world. Our operators are not merely security personnel; they are highly trained protectors, skilled in advanced defensive strategies and licensed to provide the utmost level of armed security.

Specialised Protection for High-Value Transits: ARMA specialises in securing the transport of cash and valuables across the NT. Understanding the unique risks associated with high-value asset transportation, we implement tailored security protocols, leveraging state-of-the-art technology and intelligence-led strategies to ensure the safe delivery of every item entrusted to our care.

Licensed Operators with Elite Training: The foundation of ARMA's excellence is our team of operators, each meticulously trained beyond industry standards. Our personnel undergo a rigorous selection process, followed by specialised training that encompasses firearms proficiency, tactical response, risk assessment, and crisis management. This comprehensive preparation ensures they are equipped to respond effectively to any threat, maintaining the integrity and confidentiality of the assets they protect.

Adherence to Global Security Standards: ARMA adheres to the highest global security standards in every operation, ensuring our practices meet and exceed the expectations of our international clientele. Our commitment to excellence is reflected in our continuous training programs, operational reviews, and adherence to legal and regulatory compliance in all jurisdictions where we operate.

Innovative Security Solutions: ARMA is at the forefront of security innovation, incorporating the latest in surveillance technology, communications, and logistics planning into our operations. Our proactive approach to security challenges enables us to anticipate potential threats and devise effective countermeasures, ensuring the safety of assets and personnel at all times.

Conclusion: The ARMA—Armed Capability Unit of Neptune Security represents the gold standard in armed security services. Specialising in the protection of cash, valuables, and critical assets. ARMA delivers unparalleled security solutions with precision, reliability, and effectiveness. Entrust your most valuable assets to ARMA, where they will be guarded by the pinnacle of armed protection expertise.

ARMED RISK MITIGATION NT

Tier 2 Operatives in Neptune's Special Operations Division

Tier 2 operatives represent a pivotal component of Neptune's Special Operations Division, embodying a versatile and robust skill set tailored to meet a broad spectrum of security challenges. These operatives are distinguished by their comprehensive training regime, which mirrors that of the elite Tier 1 operatives, with key exceptions to tailor their expertise to specific operational needs.

Training and Capabilities: Tier 2 operatives undergo rigorous training that encompasses a wide range of skills, from advanced medical response and cross-cultural sensitivities to the strategic use of mechanical restraints and expandable batons. This training ensures they are well-equipped to handle diverse security situations professionally and effectively. However, distinct from Tier 1, Tier 2 operatives do not receive counter-terrorism training and advanced weapons handling. This differentiation allows for a focused development of their core competencies in areas critical to their roles, ensuring both efficiency and effectiveness in their designated operations.

Operational Focus: A significant area of responsibility for Tier 2 operatives is their leadership in ARMA NT, Neptune's arm specialising in armed capability within the Northern Territory. They apply their specialised training in safe and secure transport, asset protection, and public safety operations. Without the need for counter-terrorism training and advanced weapon handling, Tier 2 operatives are optimized for the specific security needs of the Northern Territory, providing a tailored approach that leverages their unique skills and training.

ARMA NT Operations: Within ARMA NT, Tier 2 operatives engage in a variety of critical security missions. Their responsibilities include safeguarding valuable assets, ensuring the safety of cash in transit, and providing armed protection services tailored to the client's specific requirements. The focus on advanced medical response, use of force options, and mental health awareness, among other skills, allows them to navigate the complexities of their duties with a balanced and informed approach.

Tier 2 operatives are the backbone of Neptune's capacity to deliver high-quality security services within specific operational contexts. Their specialized training, minus the counter-terrorism and advanced weapons components, equips them for a broad array of assignments where such skills are not a primary requirement. Their role in ARMA NT highlights the division's adaptability and focus on providing targeted security solutions that meet the evolving needs of their communities and clients.

NEPTUNE MARITIME PROTECTION UNIT (NMPU): GUARDIANS OF THE SEA

The Neptune Maritime Protection Unit (NMPU) is a cornerstone of maritime safety within Darwin Harbour, dedicated to the robust protection of naval assets and ensuring the secure passage of vessels through Darwin Harbour. Staffed by Tier 1 operators with rich backgrounds in both Australian and international naval engagements, the NMPU offers an unmatched level of expertise and precision in maritime security operations. These elite operators are distinguished by their maritime qualifications, tailored specifically to the unique environmental and operational challenges presented in Darwin Harbour. Employing state-of-the-art surveillance technology and rapid response strategies, the NMPU adeptly manages potential threats, ensuring the safety of naval operations and the broader maritime community. Through a commitment to excellence and a comprehensive understanding of maritime security dynamics, the NMPU solidifies Neptune Security's role as a leader in safeguarding Darwin Harbour's maritime interests.

NEPTUNE MARITIME PROTECTION UNIT (NMPU)

Neptune Maritime Protection Unit (NMPU): Guardians of the Sea

In the complex and demanding arena of maritime security, Neptune's Maritime Protection Unit (NMPU) stands as a beacon of excellence and reliability. Tasked with the critical mission of safeguarding naval assets, the NMPU's operational focus is firmly anchored in ensuring the secure passage of U.S. Naval warships through strategic maritime corridors in the NT. This unit embodies Neptune Security's commitment to protecting national and international maritime interests with utmost precision and professionalism.

Advanced Surveillance and Reconnaissance: At the heart of NMPU's strategic operations lies its sophisticated surveillance and reconnaissance capabilities. Utilising state-of-the-art technology, the unit maintains vigilant oversight of maritime domains, ensuring real-time intelligence and situational awareness. This proactive approach enables identifying and assessing potential threats before they escalate, ensuring the safety of vital naval assets.

Strategic Defence Operations: NMPU's expertise extends to executing strategic defence operations with unparalleled efficiency. The unit is adept at formulating and implementing comprehensive security strategies that mitigate risks and counter a wide range of maritime threats, from piracy to sophisticated state-sponsored challenges. Through meticulous planning and execution, NMPU ensures the protection of naval assets against any adversarial actions.

Rapid Response Capabilities: The unpredictable nature of maritime security demands swift and decisive action. NMPU's rapid response capabilities are a testament to its readiness to confront emergent threats head-on. Equipped with specialised jet ski response teams and supported by agile operational units, the NMPU can deploy quickly to address security incidents, ensuring minimal disruption to naval operations and maintaining the flow of international maritime commerce.

Collaboration with International Agencies: Recognising the importance of global cooperation in maritime security, the NMPU actively collaborates with international partners and agencies. This collaborative spirit fosters enhanced information-sharing and strategic alliances, bolstering the collective capability to secure the world's oceans against shared threats.

Commitment to Excellence: The Neptune Maritime Protection Unit's unwavering dedication to excellence is reflected in its continuous pursuit of innovation and strategic development. By regularly updating its tactics, techniques, and procedures in line with evolving maritime security challenges, the NMPU remains at the forefront of maritime protection, ensuring a safe and secure maritime environment for all.

NEPTUNE MARITIME PROTECTION UNIT (NMPU)

Neptune Maritime Protection Unit (NMPU): Elite Maritime Security Experts

The Neptune Maritime Protection Unit (NMPU) is the vanguard of maritime security, meticulously manned by Tier 1 operators whose expertise sets the global standard for naval asset protection. This elite cadre of professionals, drawn from the ranks of Australian and international naval forces, brings a wealth of experience and specialised maritime qualifications to the forefront of Neptune Security's operations. Tasked with the critical mission of ensuring the safety of U.S. Naval warships and other vital maritime assets, the NMPU showcases an unparalleled commitment to excellence and strategic prowess.

Tier 1 Operator Expertise: NMPU's operational success is underpinned by its Tier 1 operators, each selected for their exceptional background in naval operations. These individuals have transitioned from distinguished careers within Australian and foreign naval units, bringing with them a deep understanding of the maritime domain, advanced navigational skills, and hands-on experience in high-stakes maritime security operations. Their rigorous maritime qualifications enable the NMPU to navigate the complexities of the maritime security landscape with unmatched expertise.

Advanced Surveillance and Strategic Defence: Leveraging cutting-edge surveillance technology, NMPU maintains a vigilant watch over critical maritime routes, ensuring comprehensive situational awareness and early threat detection. The strategic acumen of its Tier 1 operators allows for the development and execution of sophisticated defence strategies, effectively neutralizing potential threats to naval assets under their protection.

Rapid Response and Operational Agility: With capabilities bolstered by their specific backgrounds and maritime qualifications, NMPU's Tier 1 operators are equipped for rapid deployment in response to emerging threats. Their proficiency in maritime operations is complemented by specialized equipment, including jet ski response teams, enhancing the unit's agility and effectiveness in critical situations.

Global Collaboration for Maritime Security: Recognizing the imperative of international cooperation in maritime security, the NMPU works closely with allied naval forces and international agencies. This synergy amplifies the collective security efforts, ensuring a fortified maritime environment against piracy, terrorism, and other maritime threats.

Dedication to Maritime Excellence: The Neptune Maritime Protection Unit, powered by its elite Tier 1 operators, represents the pinnacle of maritime security operations. Their unique blend of naval experience, specialized training, and commitment to operational excellence ensures the highest level of protection for maritime assets, contributing significantly to global maritime safety and security.

ARMA CLOSE PERSONAL PROTECTION UNIT (CPPU)

In the realm of personal security, the ARMA Close Personal Protection Unit (CPPU) by Neptune Security stands unparalleled, delivering bespoke security solutions for high-profile individuals, dignitaries, and organizations across the Northern Territory. Manned by elite Tier 2 operatives with extensive backgrounds in advanced defensive tactics, critical risk management, and specialized driver training, the CPPU offers an unmatched level of personal protection. Catering to a diverse clientele including AFL figures, celebrities, politicians, and government officials, the unit's exceptional service is built on discretion, strategic planning, and proactive threat mitigation. With a commitment to client safety and satisfaction, the CPPU ensures peace of mind for those under its protection, setting the gold standard in close personal security services.

ARMA CLOSE PERSONAL PROTECTION UNIT (CPPU)

The ARMA Close Personal Protection Unit (CPPU) is Neptune Security's premier solution for those requiring the highest level of personal security services. With a proven track record of excellence, the CPPU serves an elite clientele, including AFL luminaries, esteemed celebrities, influential political figures, and high-ranking government officials across the Northern Territory. This distinguished unit's success stems from its holistic approach to close personal protection, combining advanced defensive tactics, strategic risk assessment, and unparalleled commitment to client safety.

Elite Tier 2 Operative Team: The Tier 2 operatives are at the core of the CPPU's operational superiority. Each member is rigorously selected and trained beyond industry standards, possessing specialized skills in advanced defensive tactics, high-risk driver training, and critical security risk management. This comprehensive training regimen ensures they not only react to threats but also anticipate and neutralize them before they can pose a risk to the client.

Bespoke Protection Strategies: Understanding that each client's security needs are unique, the CPPU prides itself on offering bespoke protection strategies. Tailored planning, based on thorough risk assessments and the client's specific requirements, enables the CPPU to deliver security solutions that are both effective and discreet. This personalized approach ensures that each client receives the highest protection level without compromising personal freedom or privacy, whether at a high-profile AFL game, during a sensitive television production, or in the complex arena of political engagements.

Advanced Logistics and Support: Leveraging state-of-the-art technology and logistics, the CPPU coordinates seamless security operations, ensuring efficient and safe transport, event security, and daily protection details. The unit's advanced driver training guarantees the safe passage of protected individuals and an adaptable response to any security challenge, whether in urban environments or the diverse terrains of the Northern Territory.

A Legacy of Trust and Reliability: The CPPU's dedication to excellence is reflected in its legacy of trust, built on a foundation of successful missions and the peace of mind provided to high-profile individuals and groups. This legacy and ongoing investment in training and technology positions the CPPU as a leader in close personal protection, continuously setting new security and client service standards.

Partnering with the CPPU: By choosing the ARMA Close Personal Protection Unit, clients are entrusting their safety to a team that is not just reactive but proactive in its defence strategies. The CPPU's exceptional skill set, dedication to client-centric protection, and robust operational capabilities make it the preferred choice for those seeking security and the assurance of continuous safety and discretion.

AVIATION ASSET PROTECTION UNIT (AAPU)

Neptune Security's Aviation Asset Protection Unit (AAPU) is at the vanguard of aviation security, offering an advanced, comprehensive approach to protecting airports, aircraft, and critical infrastructure. Staffed by elite Tier 2 operatives with specialized training in K9 handling and OC Spray deployment, the AAPU sets new standards in threat detection, rapid response, and security excellence. This unit is uniquely equipped to meet the aviation sector's complex challenges with a strategic emphasis on utilising cutting-edge technology and canine detection capabilities. The AAPU's dedication to proactive risk management and operational excellence ensures the highest levels of safety and integrity for aviation operations. Entrusting the AAPU means investing in a secure, resilient aviation environment protected by the forefront of security innovation.

AVIATION ASSET PROTECTION UNIT (AAPU)

Aviation Asset Protection Unit (AAPU): Advanced Security Tailored for the Skies

Neptune Security's Aviation Asset Protection Unit (AAPU) champions unparalleled aviation security through a fusion of advanced protocols, specialized canine units, and the strategic application of OC Spray, establishing a fortified security framework for airports, aircraft, and essential aviation infrastructure. Manned by our distinguished Tier 2 operatives, each member brings a wealth of specialized training and expertise to the forefront of aviation security, including advanced K9 handling that enhances detection and response capabilities beyond conventional measures.

Specialized Tier 2 Operatives and K9 Expertise: The AAPU is powered by our Tier 2 operatives, who have undergone rigorous training in specialized K9 handling and the effective use of OC Spray, ensuring they are well-equipped to identify and neutralize threats with precision and efficiency. This specialized training enables the unit to employ canine assets effectively in a variety of operational contexts, from narcotics and explosives detection to patrol and protection duties. The integration of OC Spray provides an additional layer of non-lethal response, enabling operatives to manage and de-escalate potential security incidents swiftly.

Comprehensive Security Approach: The unit's methodology encompasses a holistic approach to aviation security, starting with meticulous threat assessment to identify potential risks. This proactive stance is bolstered by swift emergency response protocols and extensive patrols, ensuring comprehensive coverage and vigilance across all aviation assets. Our commitment to leveraging the latest in technology and canine detection capabilities allows the AAPU to offer a multi-faceted defense layer, adept at confronting the dynamic challenges of the aviation sector.

Operational Excellence and Proactive Risk Management: At the heart of the AAPU's mission is a relentless pursuit of operational excellence and proactive risk management. Tailored security strategies and continuous training ensure our operatives and canine partners remain at the leading edge of aviation security practices. This dedication to excellence underscores our commitment to safeguarding the safety, integrity, and continuity of aviation operations, making the AAPU a linchpin in the protection of national and international aviation interests.

The Aviation Asset Protection Unit stands as a testament to Neptune Security's innovative approach to security, combining specialized training, advanced technology, and canine acumen to provide an impenetrable security shield for the aviation sector. Entrusting the AAPU with your aviation security needs guarantees peace of mind, knowing that your assets are under the vigilant watch of industry-leading professionals dedicated to maintaining the highest standards of safety and security.

GENERAL CANINE ASSET PROTECTION UNIT

Neptune Security's General Canine Asset Protection Unit (GCAPU) epitomizes the cutting-edge of security services, leveraging the unparalleled abilities of trained canines to offer dynamic, responsive security solutions. Specializing in tracking, crowd control, and comprehensive patrols, the GCAPU integrates these highly skilled canine teams to enhance security across diverse environments. Each handler and canine pair is meticulously trained, embodying Neptune Security's commitment to excellence and innovation in safeguarding assets and ensuring public safety. The GCAPU's unique approach not only deters potential threats but also provides a versatile, adaptable security presence, setting a new standard for effectiveness and reliability in asset protection.

GENERAL CANINE ASSET PROTECTION UNIT (GCAPU):

The General Canine Asset Protection Unit (GCAPU) stands as a testament to Neptune Security's innovative approach to comprehensive security solutions. By harnessing the unique capabilities of highly trained canines, the GCAPU enhances security measures with unparalleled efficiency and adaptability across a multitude of scenarios. Specializing in advanced tracking, crowd control, and proactive patrols, this unit represents the epitome of a dynamic and responsive security presence tailored to meet modern safety and protection demands.

Advanced Canine Capabilities: At the heart of the GCAPU's operational success are the canines, each rigorously trained in various security disciplines. These canine partners excel in tracking, allowing for the swift location of missing persons or suspects, and excel in crowd control, ensuring public events and gatherings remain safe and orderly. Their presence alone is a powerful deterrent to potential threats, while their agility and acute senses enable quick responses to security breaches.

Dynamic Integration of Canine Patrols: The GCAPU strategically integrates canine patrols into its security framework, ensuring versatile coverage of designated areas. These patrols are not just about visibility; they are a mobile and flexible security layer capable of adapting to evolving situations on the ground. Whether navigating through dense crowds or conducting thorough inspections of facilities, the canine teams operate with precision and cohesion, guided by handlers who are experts in canine behaviour and security tactics.

Specialized Training for Handlers: Each canine handler within the GCAPU undergoes specialized training that focuses on enhancing the natural synergy between the handler and canine. This training covers a broad spectrum, from behavioural understanding and command techniques to advanced security protocols and emergency response. Such comprehensive preparation ensures that each team can effectively leverage their combined capabilities to maximize security outcomes.

Enhancing Security Across Scenarios: The GCAPU's versatility allows it to operate across various environments and scenarios, from public events and commercial venues to sensitive installations requiring heightened security. The unit's ability to provide tailored security solutions through high-visibility patrols or discreet monitoring makes it an invaluable asset in Neptune Security's portfolio.

Commitment to Excellence: The General Canine Asset Protection Unit's commitment to operational excellence is evident in its continuous pursuit of innovation in canine training methodologies and technology integration in its operations. By staying at the forefront of security advancements, the GCAPU ensures the safety and security of the environments it protects and reinforces Neptune Security's reputation as a leader in cutting-edge security solutions.

Community Engagement Patrolling Unit (CEPU)

Neptune Security's Community Engagement Patrolling Unit (CEPU) redefines the landscape of security services by placing community engagement and support at the forefront of its mission. Focused on fostering positive relations and enhancing public safety, the CEPU actively collaborates with communities, prioritizing direct engagement, accessibility, and proactive support.

With a dedicated approach to serving and protecting, especially the most vulnerable members, the CEPU not only ensures safety but also builds a foundation of trust and mutual respect. This innovative unit exemplifies Neptune Security's commitment to creating safer, more connected communities through a partnership-based approach to security.

COMMUNITY ENGAGEMENT PATROLLING UNIT (CEPU)

Community Engagement Patrolling Unit (CEPU): Building Safer Communities Through Engagement and Support

Neptune Security's Community Engagement Patrolling Unit (CEPU) embodies a pioneering approach to security that transcends traditional methods to embrace a more integrated, community-focused strategy. Dedicated to cultivating positive relations within its communities, the CEPU operates on the foundational belief that safety is a collaborative effort achieved through vigilance and meaningful engagement and support.

Engagement and Outreach: Central to the CEPU's mission is its commitment to proactive community engagement. This involves a range of outreach activities designed to build trust, open lines of communication, and deeply understand community needs. From educational programs to community events, the CEPU works tirelessly to be an accessible, reassuring presence, offering a platform for concerns to be heard and addressed.

Support for Vulnerable Community Members: Recognizing the diverse needs of the communities it serves, the CEPU particularly emphasises supporting vulnerable members. This commitment translates into tailored initiatives that provide not just security but also resources and assistance to those who may be at risk. Whether it's through direct intervention, liaising with social services, or simply offering a listening ear, the CEPU seeks to make a tangible difference in people's lives.

Collaborative Approach to Public Safety: The CEPU's strategy is inherently collaborative, involving partnerships with local organizations, law enforcement, and community groups. This collective approach allows for a more nuanced understanding of community dynamics, enabling the unit to contribute effectively to public safety strategies that resonate with community values and needs.

Proactive Support and Accessibility: Accessibility and proactive support are hallmarks of the CEPU's operations. The unit is designed to be approachable and visible within the community, fostering residents' sense of security and belonging. By prioritizing engagement over enforcement, the CEPU encourages a cooperative relationship with the public, where security is a shared responsibility.

Impact and Commitment: The impact of the Community Engagement Patrolling Unit is measured not just in reduced incidents or statistics but in the strengthened bonds within the community, increased trust in security efforts, and the empowerment of individuals and groups to contribute to their own safety. The CEPU's commitment to fostering positive community relations and its innovative approach to public safety positions it as a vital component of Neptune Security's comprehensive security services, redefining the essence of community-based security.

PRISONER TRANSPORT AND ESCORT UNIT (PTEU)

Neptune Security's Prisoner Transport and Escort Unit (PTEU) epitomizes the seamless integration of security, efficiency, and professionalism in the handling and transportation of detainees. Working in close partnership with the Northern Territory Police, the PTEU specializes in the secure and respectful transfer of detainees, thereby enhancing the operational capacity of law enforcement and ensuring public safety. Recognized for its rigorous training regimen and operational excellence, the PTEU sets the standard for detainee transport services, embodying Neptune Security's dedication to supporting the justice system while optimizing police resources. Through meticulous planning and execution, the PTEU contributes significantly to the smooth functioning of the criminal justice process, affirming our commitment to safety, security, and service excellence.

PRISONER TRANSPORT AND ESCORT UNIT (PTEU)

Prisoner Transport and Escort Unit (PTEU): Ensuring Secure and Efficient Detainee Transport

Neptune Security's Prisoner Transport and Escort Unit (PTEU) represents a critical component of the Special Operations Division, specialized in the secure and humane transportation and escort of detainees across the Northern Territory. In a strategic partnership with the Northern Territory Police, the PTEU plays a pivotal role in enhancing the efficiency of the criminal justice process, ensuring that police resources are optimized and that transfers are conducted with the utmost safety and security.

Strategic Law Enforcement Partnership: The collaboration between the PTEU and the Northern Territory Police is founded on mutual respect and the shared goal of maintaining public safety and security. By taking on the responsibility of prisoner transport and escort, the PTEU allows law enforcement to allocate their resources more effectively, focusing on frontline policing and community safety initiatives.

Specialized Transport Operations: The PTEU employs a fleet of specially designed vehicles and employs state-of-the-art security measures to ensure the safe transport of detainees. Each operation is meticulously planned and executed, with routes and protocols regularly reviewed and updated to adapt to any potential risks or challenges. The unit's operational protocols are designed to respect the dignity of those in custody while ensuring the safety of the public, the detainees, and the officers involved.

Rigorous Training and Professionalism: Operatives within the PTEU undergo rigorous training that encompasses advanced defensive tactics, conflict resolution, first aid, and the specific skills required for the secure handling and transport of detainees. This comprehensive training ensures that all personnel are prepared to manage a range of scenarios with professionalism and operational excellence.

Operational Excellence and Accountability: The PTEU's commitment to operational excellence is evident in its flawless execution of transport and escort missions. The unit operates with an unwavering commitment to accountability, ensuring that all procedures are transparent and in strict adherence to legal and ethical standards. This approach not only bolsters the unit's reputation for reliability but also reinforces the trust placed in it by the Northern Territory Police and the broader community.

Contributing to a Safer Community: Through its specialized services, the Prisoner Transport and Escort Unit (PTEU) contributes significantly to the overall safety and security of the Northern Territory. By ensuring the secure and efficient transport of detainees, the PTEU plays a vital role in the smooth functioning of the criminal justice system, demonstrating Neptune Security's overarching commitment to public safety and operational excellence.

Special Operations Division

OPERATIVES

SPECIAL OPERATIONS DIVISION'S OPERATIVES: TIERED EXCELLENCE IN SECURITY OPERATIONS

Special Operations Division's Operatives: Tiered Excellence in Security Operations

Neptune Security's Special Operations Division (SOD) is characterized by its structured, tiered system of operatives, ensuring specialized, high-caliber security services across various units. This tiered system enables the SOD to allocate resources and expertise efficiently, matching the unique demands of each operation with the specialized skills of its operatives. Here's an overview of the roles and responsibilities across Tier 1, Tier 2, and Tier 3 operatives:

Tier 1 Operatives: The Elite Vanguard

Tier 1 operatives represent the pinnacle of the Special Operations Division's capabilities, entrusted with executing the most challenging and critical assignments. These elite personnel are deployed to units requiring the highest level of security precision and expertise, including the Northern Territory Public Order Response Unit (NT PORU), ARMA Asia, and the Neptune Maritime Protection Unit (NMPU). With extensive training in advanced security protocols, counter-terrorism strategies, and maritime security operations, Tier 1 operatives are adept at navigating high-stakes environments, ensuring unparalleled protection and strategic response capabilities.

Tier 2 Operatives: Specialized Security Experts

Tier 2 operatives form the backbone of the SOD's specialized security services, engaging in operations that require advanced defensive tactics, critical security risk management, and specialized training such as K9 handling and OC Spray deployment. These operatives lead the Aviation Asset Protection Unit (AAPU), ARMA Close Personal Protection Unit (CPPU), and ARMA NT, showcasing their expertise in aviation security, personal protection, and armed security operations. Their role is pivotal in delivering targeted security solutions that address the specific needs of clients and operations, maintaining safety and integrity across diverse scenarios.

Tier 3 Operatives: Community and Transport Specialists

Tier 3 operatives focus on roles that significantly impact community engagement and the efficiency of the criminal justice system. They are primarily responsible for conducting prisoner transport and community engagement patrols, operating within the Prisoner Transport and Escort Unit (PTEU) and the Community Engagement Patrolling Unit (CEPU). These operatives are specially trained in areas such as conflict resolution, community outreach, and the secure and humane handling of detainees. Their work not only supports the operational capacity of law enforcement but also strengthens community relations, highlighting Neptune Security's commitment to comprehensive security and public safety.

Conclusion:

The tiered structure of Neptune Security's Special Operations Division's operatives ensures that every unit is powered by personnel with the precise skills, training, and dedication needed for their specific security tasks. From high-risk maritime protection and public order response to personal protection and community engagement, the tiered system allows for a tailored approach that meets the evolving security needs of clients and the community. Each tier contributes to the overarching mission of ensuring safety, security, and operational excellence, solidifying Neptune Security's status as a leader in specialized security services.

SPECIAL OPERATION PRICING GUIDE

NORTHERN TERRITORY PUBLIC ORDER RESPONSE UNIT (PORU) – TIER 1 OPERATIVE TEAMS

Northern Territory Public Order Response Unit (PORU) – Tier 1 Operative Teams

At Neptune Security, our Special Operations Division offers the elite Northern Territory Public Order Response Unit (PORU), featuring Tier 1 Operative teams that set the gold standard in security operations. Each deployment is designed to meet the highest demands of security, providing comprehensive protection and peace of mind.

Base Package:

- **Operative Teams:** Teams of 2 Tier 1 Operatives
- **Pricing:** Starting at \$250 per hour
- **Includes:** A fully signed vehicle equipped for operational excellence, including a Defib and Trauma medical kit and two highly trained Tier 1 operatives, ensuring an unmatched level of security presence and response capability.

Customisable Add-Ons:

Enhance your security package with our selection of add-ons, tailored to provide additional layers of protection and response tools:

- **Specially Trained Security K9:** For an additional \$30 per hour, add a highly trained security canine to your team. These K9 units excel in crowd control and detection and provide an imposing deterrent to potential security threats.
- **OC Spray:** Equip each operative with OC Spray for heightened non-lethal response capabilities, starting at \$10 per hour per operative. This option enhances the team's ability to manage and de-escalate situations with minimal force.
- **Baton:** Incorporate the use of a baton for each operative, beginning at \$7.50 per hour. Batons offer a reliable and effective means of defence and control, further enhancing your security detail's preparedness.
- **Handcuffs:** For \$7.50 per hour, add handcuffs to your operatives' toolkit, ensuring readiness for detainment and control scenarios with professional restraint solutions.

Why Choose PORU Tier 1 Operatives?

Choosing the PORU Tier 1 Operative teams means investing in top-tier security solutions that are proactive, professional, and prepared for any challenge. Each aspect of our service, from the advanced training of our operatives to the strategic use of add-ons, is designed to provide superior security coverage that meets your specific needs. With Neptune Security's PORU, you're not just hiring security but ensuring a safe, controlled environment where business and activities can proceed confidently.

For detailed pricing tailored packages and to learn more about how the Northern Territory Public Order Response Unit can serve your security needs, contact Neptune Security today. Experience the peace of mind that comes from knowing you're protected by the best in the business.

ARMA - ASIA ARMED SPECIALIST CONTRACTING UNIT: PRECISION SECURITY ACROSS ASIA

ARMA - Asia Armed Specialist Contracting Unit: Precision Security Across Asia

Neptune Security's ARMA - Asia Armed Specialist Contracting Unit is the epitome of specialized security solutions across Thailand, Timor, and the broader Asian region. Designed for the secure transportation of valuable commodities, this elite unit boasts Tier 1 operatives known for their precision, reliability, and unmatched expertise in navigating high-stakes operations.

Base Package:

- **Pricing:** Starting at \$1,000 per hour.
- **Included:** Two Tier 1 operatives, equipped and trained to confront complex security challenges, ensuring your assets' utmost safety and integrity. Every operation commences with a thorough planning and preparation phase, laying the groundwork for a successful mission.

Mandatory Planning and Preparation Meeting:

- **Pricing:** Starting from \$5,000.
- **Details:** This non-negotiable component ensures meticulous mission planning and asset protection strategy formulation, providing a solid foundation for the operation's success.

Customizable Add-Ons:

For operations requiring additional manpower or specialized equipment, we offer the following add-ons to enhance your security solution:

- **Additional Operatives:** Enhance your team with extra Tier 1 operatives at \$400 per hour each, bringing more expertise and capability to the operation.
- **Night Vision Goggles:** Equip your team with night vision goggles for \$25 per hour, ensuring operational effectiveness under low-light conditions.
- **Armed Vehicle:** Incorporate an armed vehicle into your security detail starting at \$1,000 per hour, providing fortified transportation and an elevated level of asset protection.
- **Specially Trained Security K9:** For an additional \$30 per hour, add a highly trained security canine to your team. These K9 units excel in crowd control and detection and provide an imposing deterrent to potential security threats.
- **OC Spray:** Equip each operative with OC Spray for heightened non-lethal response capabilities, starting at \$10 per hour per operative. This option enhances the team's ability to manage and de-escalate situations with minimal force.
- **Baton:** Incorporate the use of a baton for each operative, beginning at \$7.50 per hour. Batons offer a reliable and effective means of defence and control, further enhancing your security detail's preparedness.
- **Handcuffs:** For \$7.50 per hour, add handcuffs to your operatives' toolkit, ensuring readiness for detainment and control scenarios with professional restraint solutions.

Why Choose ARMA - Asia?

Opting for ARMA - Asia's Armed Specialist Contracting Unit means entrusting your valuable assets to a team that understands the intricate challenges of securing commodities across Asia and excels in navigating through potentially volatile regions with tact and efficiency. Our operatives' precision, backed by state-of-the-art equipment and comprehensive planning, ensures the safe transit of your assets, providing peace of mind in high-stakes scenarios.

For operations that demand the highest standard of security and operational planning, ARMA—Asia is your premier choice. Contact Neptune Security to discuss a tailored security package that meets your unique needs or to gain further insights into our service offerings. Let us protect what's valuable to you with unparalleled professionalism and expertise.
